

Rulebook Version 1

Our Focus is on the original combat courses that this gun was designed for. Simple, low round count pass or fail type courses.

1911 45 ACP
No Light Rails
No Plastic Guns
No Plastic Holsters
No Plastic Magazine Holders
No Optics
No Compensators
No stage more than 15 rounds

What we will focus on is the 1911 for personal carry and defense. Your gear should be centered on how you really carry in secure leather on the street. All safety rules will be in place. A par time will be set for the course and you will either pass or fail. Missed targets will mean you fail. The time limits will be ample for you to get your hits. Our goal here will be to develop better skills with the 1911 and become competitive with a challenging team in the future.

As always, we can use your input.

Must RSVP to get a slot in the match.
